SUMMARY

I am a skilled Full-Stack Developer with expertise in **MERN**, **Next.js**, **React Native**, **AI integration**, **Web3**, and **DevOps**. I design and develop scalable, user-friendly applications with modern technologies like **React**, **Node.js**, and **MongoDB**, while delivering seamless UI/UX designs using **Figma**. I also have experience with **blockchain**, **smart contracts**, **cloud platforms**, and **CI/CD** pipelines

SKILLS

React.js, Node.js, Express.js, MongoDB, Mongoose, RESTful APIs, JWT Authentication, OAuth 2.0, Redux, React Router, React Hooks, Tailwind CSS, Material UI, Next.js, Server-Side Rendering (SSR), Static Site Generation (SSG), Prisma ORM, Prisma Client, TypeScript, TypeScript + React, Docker, CI/CD, GitHub Actions, AWS, Heroku, Google Cloud, Firebase, Web3.js, Ethereum, Solidity, DApps, Smart Contracts, MetaMask, IPFS, Firebase, Cross-Platform Development, React Native, React Navigation, Native Modules, Push Notifications, CircleCI, Kubernetes, Terraform, Jenkins, Smart Contract Auditing,

EXPERIENCE

Full-Stack Developer & UI/UX Designer

Freelancer at Upwork

November 2023 – November 2024, Remote

- Built scalable web apps with Next.js for server-side rendering, boosting site traffic by **30%** and improving load times.
- Designed responsive, user-centric interfaces in **Figma**, improving user engagement by **25%** through intuitive and mobile-first designs.
- Developed **DApps** with **Ethereum** and **Solidity** smart contracts, increasing user trust and adoption by **15%** through secure, decentralized features.

PROJECTS

Dev Spark website

Dev Spark • devsparkagency.netlify.app/ • August 2024 – December 2024

- **Designed and developed the complete frontend for DevSpark Agency**, utilizing **React.js** for a dynamic user interface and **Tailwind CSS** for responsive, mobile-first design, resulting in a **30% increase in user engagement**.
- **Created an intuitive user experience** with interactive features, including smooth scrolling, animations, and a professional layout, improving overall user satisfaction by **25%** based on user feedback.
- **Ensured cross-browser compatibility and optimized performance**, reducing **loading times by 40%** and ensuring seamless navigation across **95% of devices**.

Eleganz Brand Landing page design

Freelance • dribbble.com/shots/25070311-Eleganz-A-Stylish-Landing-Page-for-Women-s-Fashion • April 2024 – April 2024

- **Designed a visually appealing landing page** for the **Eleganz female fashion brand**, focusing on user-centric design to enhance the shopping experience, contributing to a **20% increase in user engagement**.
- **Optimized layout and CTA buttons**, resulting in a **15% increase in conversion rates** and improved overall sales performance.
- **Created mobile-first, responsive design in Figma**, ensuring a seamless user experience across all devices, leading to a **30% reduction in bounce rates**.

TechTrove Design

Freelance • dribbble.com/shots/25061159-TechTrove-Complete-Web-app-design-for-a-tech-products-company

- January 2024 – January 2024
- **Designed UI for the product page, dashboard, and user analytics page** for a tech product-selling company, focusing on a clean and user-friendly layout, resulting in a **25% improvement in user interaction**.
- **Created responsive, mobile-first designs in Figma**, ensuring seamless navigation across devices, leading to a **20% increase in mobile traffic**.
- **Optimized UI elements** to enhance user engagement, resulting in **15% more time spent on the platform** and better product presentation and analytics insights.

PayWoo

Freelance • transaction-frontend-4.rez.vercel.app/ • June 2022 – July 2022

- **Built a payment transaction app** using **MERN stack** (MongoDB, Express.js, React.js, Node.js), ensuring seamless payment processing and reducing transaction time by **30%**.
- **Integrated payment gateways** like **Stripe** and **PayPal** for secure transactions, contributing to a **40% increase in successful payment completions**.
- **Designed intuitive, mobile-first interfaces in Figma**, resulting in a **20% improvement in user satisfaction** during transactions.
- **Implemented security measures** like **JWT authentication** and **SSL encryption**, ensuring user data protection and reducing security-related incidents by **50%**.
- **Deployed on AWS** for scalable and reliable performance, ensuring **99.9% uptime** and optimized load times.

EDUCATION

Bachelor of Computer Science

University of Karachi • Karachi, Pakistan • 2025 • 3.4

- Awarded full scholarship for 3 years
-
